

Countdown to Christmas for Couples

Advent is not just for children. It's for couples too!

Here are 24 activities that are great for building a little couple time into your holidays. Feel free to add to or simplify the ideas. You may also want to swap out ideas if there is something meaningful that you and your husband do as a holiday tradition.

Print out them out, cut them into slips. You can pull them out of a container randomly or you could pin them to a board and take turns picking.

Be sure to read them over before December 1st and gather needed materials.

Enjoy your holidays!
